

G. O. P. INSISTS ON NEGRO VOTERS GETTING RIGHTS

WARNS STATES BLACK DELEGATES MUST NOT BE KEPT FROM MEETS

Attempts to Avoid Race Issue in Meeting Were Futile

By Associated Press Leased Wire
Chicago, June 3.—By unanimous consent the Republican committee directed Chairman Hays to notify all state organizations that they must discontinue holding local conventions for election of national delegates in places "where it is the custom and practice to refuse admission to negroes."

The committee attempted to avoid the race issue but failed. Aroused by the number of contests from the southern states in which it was shown that district conventions were held in hotels and other places where negroes are not admitted, Charles B. Warren, committeeman from Michigan, moved to have the committee, issue a "warning to the south" that contests on similar grounds must not be permitted to come up at the next national convention.

Takes in Whole Nation.
Southern committeemen headed by W. H. Jackson, of Georgia, protested that the resolution as formed was a slur on the south and contended that specific mention of the southern states should be eliminated and its terms broadened to refer to the entire country. Colonel Warren accepted an amendment to that effect and it was unanimously adopted by a viva voce vote. In support of his resolution Colonel Warren told the committee that it might as well face the race issue in that way for the good of the party. Committeeman Hurt of Kentucky supported the motion and declared that since Kentucky of its own action had admitted negro voters and delegates freely, the Republican electorate had been greatly increased. The southern committeemen made no objection to the resolution as it was amended to eliminate specific reference to the southern states.

Colonel Warren's resolution follows:
"In view of the fact that it is this session of national committee and at previous sessions of the national committee and preceding national conventions it has appeared that in some states meetings of the Republicans have been called in places where it has the custom and practice to deny access to colored people, the national committee gives notice through its chairmen to all the organizations of all Republican party that that practice must not be followed in the future in any state convention or in any district convention."

MORE CANDIDATES ARRIVE
By Associated Press Leased Wire
Chicago, June 3.—Two Republican presidential candidates Senator Johnson of California and Senator Harding of Ohio, arrived in Chicago today and their coming marks the beginning of the active days of the pre-convention period.

Five days remain before the Republican party assemblies in the coliseum to pick its candidate and those five days are expected to contain crowded hours of conferences, last minute alignment of forces, and final decisions among the campaign managers. Every one of the candidates except Herbert Hoover is expected to be here at some time.

The advance guards of the delegates are beginning to arrive and by Sunday they will be coming in a steady stream. The majority of them, to be sure, are technically unpledged but most of them have their leanings and very few of them are claimed by less than three campaign managers. Some of the chairmen of the incoming delegations are announcing their preferences in prepared statements which breathe confidence of success, but the political managers standing on the side lines and making up their minds have found no reason for changing their opinion that while some of the candidates have enough delegates to give them formidable fighting strength in the convention, it is going to take more than two or three ballots to show where the forces of conciliation and compromise must be applied to bring forth a candidate who will command a majority.

Much Speculation Rife
If the realm of speculation were to be entered it would be necessary to mention practically every candidate who has announced himself thus far, because every one of those candidates has a manager who advances a set of reasons why his principle is the logical choice for a convention which will not be prepared to give a majority of its votes to any one at the outset.

As the delegates begin to gather, there is a fore-runner of discussion of the convention issues which will find expression in the party platform, and those who are interested in having the party take a position on various subjects are busy lining up influence which they expect to be effective in the deliberations of the resolutions committee.

As soon as the members of the national committee are freed of the convention (Continued on Page 2)

MARK C. KELLER A CANDIDATE FOR STATES ATTORNEY OFFICE

Mark C. Keller, Attorney at Law and Master in Chancery of Lee County, announces his candidacy for the republican nomination as States Attorney. Mr. Keller's decision to become a candidate will meet with the approval of a large number of people all over the country, as he is widely known as a man of exceptionally high character and a lawyer of proven ability.

Mr. Keller, the latest entry into the large field of candidates for this most important office, was born in the southern part of Lee County. He graduated from the Chicago business College and obtained the degree of Master of Laws in Dixon College, under Dean Watts, who now, with other eminent jurists, composes the Illinois state Board of Law Examiners for admission to the bar.

Admitted To Bar in 1900
Twenty years ago, October 12, 1900, Mr. Keller was admitted to the bar and for a year he practiced law in the city of Chicago. He then came to Dixon and established himself in practice in Lee County, where he has been since that time.

Active Party Worker
For a number of years he was elected secretary of the Lee County Republican Central Committee and he has always been an active supporter of clean politics in the republican party.

Elected City Attorney
Mr. Keller was elected City Attorney by the voters of Dixon and then when the office became appointive, under the Commission form of government, he was twice appointed to that office. His work as city attorney has been of such high standard that Mr. Keller has become known all over this part of the state as an expert on municipal legal affairs and he has been called upon to represent city and village boards in many important matters.

As a young man Mark Keller taught school, instructing in mathematics, sciences and preparatory college work for two years.

Master in Chancery
As further evidence of his legal ability the circuit judges of this judicial district have named Mr. Keller Master in Chancery in Lee County since the resignation of the late Atty. A. C. Bardwell in 1914.

Mark C. Keller resides with his family, at 603 Pearl Avenue, in Dixon.

Supposed Chicken Thief Was Owner
Sheriff Schoenholtz was seated in the police station last evening conferring with Chief Van Bibber when the telephone rang and a resident in the west end of the city urged that the officers come at once to a neighbor's chicken roost which he reported was being robbed. Both officers jumped into the sheriff's machine and were at the scene of the supposed wholesale robbery in a very few minutes.

As they approached the hen roost, a dark form emerged with a bird under his arm, the latter making plenty of racket. When the chief's flashlight was played upon the countenance of the supposed thief, it revealed the actual owner of the flock. The neighbor who had turned in the alarm had reported that the family was not at home and was near at hand when the supposed thief was apprehended. Apologies were in order.

GETS RARE DOG
Harry Beard yesterday received a valuable present from an uncle residing in St. Paul, a pure bred Russian bear hound, a dog that is highly prized and rare in this country. The donor of the present is a well known fancier and breeder of pure bred hunting dogs who has many kennels of prize winners at St. Paul.

MAY EXTEND INQUIRY TO CAMPAIGNS AND NOVEMBER ELECTIONS

Senate Asked to Authorize Committee to Continue Work

BULLETIN.
By Associated Press Leased Wire
Washington, June 3.—The senate was asked today by Senator Pomrenne, Democrat, Ohio to authorize the committee investigating the pre-convention political financing to extend its inquiry to the presidential and senatorial campaign which will end with the elections in November.

By Associated Press Leased Wire
Washington, June 3.—Horace S. Stebbins, of New York, first treasurer of the Lincoln-Wood League, and sought by subpoena servers of the senate investigating committee for several days, wired the committee today from Montreal that he had just heard of the search for him and desired to testify. He will be heard tomorrow.

W. B. Burtt, assistant to Colonel William Cooper Proctor, national chairman of the Wood campaign committee, was the first witness called today before the committee.

In business life, he said he was assistant and confidential men for Ambrose Monell, of New York, who it has been testified was a heavy contributor to the Wood campaign fund.

Mr. Burtt said he had brought papers from the Wood national committee and produced a suit case and two bundles, from which he took a set of formidable looking ledgers.

Mr. Burtt said one of the volumes contained all the requests for funds filed with the national Wood committee by state and district managers and a notation of the action taken.

Mr. Burtt said \$400,000 had been spent in Indiana, but that unpaid bills would bring the total to \$58,000.

Chairman Kenyon turned to a bound receipt book.

"Received from William Loebe, March 29, 1920, \$25,000.00," he read.

U. S. Govt. Must Back Business—Wheeler
By Associated Press Leased Wire
Cincinnati, June 3.—Speaking before the Cincinnati Chamber of Commerce Harry A. Wheeler, president of the Chamber of Commerce of the United States, urged that the government "place itself underneath business in a helpful way; especially in the export field, just as England and other countries have done."

"It is this getting underneath," he said "that accounted for the success of Great Britain in the world's markets, and until the United States government gives the same consideration to its businessmen in foreign countries, the American exporter will be at a disadvantage."

Pershing is Guest of State of Maine
By Associated Press Leased Wire
Portland, Me., June 3.—General Pershing began today a three days' tour of Maine as the guest of the state. He was welcomed at Biddeford, where he arrived early in the day from New York by Governor Milliken. During his visit he will travel over the state by automobile accompanied by Governor Milliken, the governor's staff and members of the executive council, the itinerary covering 11 of the 16 counties.

At Biddeford the streets through which the general passed were lined with school children cheering and waving American flags.

Prohibition Agent Faces Four Charges
By Associated Press Leased Wire
Escanaba, Mich., June 3.—John Fillion, federal prohibition agent, is held under bail here for four charges, pointing a gun at Joseph Carney, police sergeant, of Escanaba, pointing a gun at another man, assault and battery and carrying concealed weapons.

It is alleged that when Carney attempted to arrest Fillion he resisted arrest by use of a gun.

NEYSA M'MEIN AND WILL ROGERS, ACE OF ART AND WIT COVER G. O. P. CONVENTION FOR READERS OF THE EVENING TELEGRAPH

Miss Neysa McMein, foremost of America's magazine cover artists, and Will Rogers, the famous Oklahoma Cowboy Humorist and Goldwyn film star, have joined the staff of the Evening Telegraph to do the G. O. P. convention. These aces of art and wit will draw and write the best there is to be pictured and said about the Republican circus.

Neysa McMein, who is still in her twenties, is already a national institution in America. "Neysa McMein girls" are more popular today than the Gibson girl, the Christy girl or the Harrison Fisher girl, and adorn half the magazine covers that hang on your favorite news stand.

Miss McMein had no intention of becoming an artist when she was a girl in her teens and lived in Quincy, Ill., until her father decided to send her to a finishing school.

"I had always been the stupidest girl at school," she said, "and I knew that a finishing school would finish me, so I persuaded dad to let me go to the Chicago Art Institute and take a course in drawing there."

Will Rogers is the brightest star in the firmament of humorists. That's high praise, but it's a fact. He's known to millions as circus performer vaudeville lariat twirling phenom and now a Goldwyn movie actor.

But he's perhaps admired more, even as America's rising humorist. Some years back he took to filling his vaudeville act with witty chatter about the news of the day. His comments on current events were so droll that his audiences rocked with laughter.

That's why the Evening Telegraph has engaged him to write gags every day for a week or so before and during the national conventions.

His brand of humor is as fresh and wholesome as the Oklahoma breeze that tanned his cheeks in his cowboy days.

Readers of the Telegraph will miss the rarest treats of the G. O. P. convention if they do not follow our super-stars, Neysa McMein and Will Rogers, in pictures and jokes.

TREASURY MAN HERE TO BOOST SAVINGS SCHEME
U. S. Certificates to be Continued Until October 1921

A. A. Memhard, special representative of the Savings Division of the U. S. Treasury, is here for a few days surveying the local field preparatory to systematic and thorough campaign in Dixon in the interest of the sale of Treasury Savings Certificates, which many Dixon people have already invested in. Mr. Memhard will be followed in a short time by a corps of workers who will direct the campaign. Partial details of the movement is outlined in the following statement from the officials of the Seventh Reserve District:

Industrial concerns, big stores and business concerns in general received with enthusiasm the partial payment plan adopted first by the banks of the Seventh District, where the idea originated. Payments on these savings securities, which always are worth more than was paid for them, may be made on a weekly, semi-weekly or monthly basis, the payments suggested being \$2, \$4 and \$8, respectively. The investor enters into a contract with the bank. When the payments are completed the certificates are turned over to the purchaser.

Following are the purchase prices of the \$100 certificates if the final payment is made in the month designated: September, \$54; October, \$54.20; November, \$54.40; December, \$54.60; January, 1921, \$54.80; February, \$55; March, \$55.20; April, \$55.40; May, \$55.60; June, \$55.80; July, \$56; August, \$56.20; September, \$56.40; October, \$56.60.

Under the agreement with the bank, if the purchaser fails to make his payments promptly or if any payment continues in default for more than thirty days, the bank may at its discretion, after due notice, issue to the purchaser War Savings stamps and Thrift stamps equivalent to the sum of money actually paid in, upon surrender to the bank of the partial payment contract. It is also agreed that the investor is entitled at any time prior to the completion of payments to a like refund of all payments made. The contract is solely between the bank and the investor and no obligation on the part of the government arises until the Savings Certificate is delivered to the purchaser.

PROHIBITIONIST DEMANDS REPLY OF CANDIDATES

Wants to Know Where They Stand on Amendment

By Associated Press Leased Wire
Chicago, June 3.—Virgil Hinshaw, chairman of the prohibition national committee this morning drew up two questions for presentation to the Republican presidential candidates and said he was going immediately to their headquarters to ask an answer in person of each candidate or his representative. The questions were:

"Do you believe in the eighteenth amendment as interpreted by the Volstead act, which act as you understand interprets intoxicating liquors to be anything containing more than one-half of one per cent of alcohol?"

"Do you favor your party adopting a plank in its national platform endorsing the eighteenth amendment and its enforcement as interpreted by the Volstead act or some measure equally effective?"

Mr. Hinshaw declared he intended to tell the whole country what answer each candidate made to these questions.

William Jennings Bryan will arrive here tomorrow, Mr. Hinshaw said, and the prohibition party chairman will work with him as with other friends of prohibition to get a platform endorsement of the prohibition amendment as interpreted by the Volstead act.

YOUNG ZINKE CHARGED WITH WHEEL THEFTS

May Face the County Court for His Latest Escapade

Adam Zinke, aged 14 years, was taken in custody by Chief Van Bibber last evening at his home on Woodlawn and Nachusa avenue and questioned regarding two bicycle thefts that have been reported since Monday. The police had reason to believe that young Zinke had taken the bicycles, despite the fact that he denied any knowledge of it when questioned.

At the police station the boy admitted having stolen a bicycle on Nachusa avenue south of the Northwestern tracks Monday afternoon belonging to Lester Mossholder. He walked down town with the wheel and back of the Snow White bakery where he exchanged the Mossholder wheel for another belonging to Harvey Willett, a baker. The latter wheel was found by the police near Fourth street and College avenue where Zinke had left it with some boys. Young Zinke was sent home last night and will report this afternoon at which time some action will be taken in his case.

A few weeks ago the boy was taken in connection with the robbery of merchandise cars on the Illinois Central here and admitted having stolen cheese, milk and other articles from the car. It is probable that he will be taken into the county court and his case disposed of.

289 MIDSHIPMEN GRADUATE FROM NAVAL ACADEMY

Daniels Urges New Officers to be Initiative

By Associated Press Leased Wire
Annapolis, Md., June 3.—Upon the spirit and will of its officers to cast off "slavery to tradition" and venture into the realm of things new and untried depends the future strength and efficiency of the American navy, Secretary Daniels told the graduating class of midshipmen at naval academy here today in presenting diplomas to its 289 members.

Citing as an object lesson the navy's record of resourcefulness in the world war as best exemplified in the North sea barrage, the secretary told the young officers not to let the weight of accepted theories restrain their efforts to keep American sea power at the forefront in strategy and invention.

"To some men tradition is a taskmaster, a hard rule, a beaten path," the secretary declared. "To others a light to the pathway; wings on which to mount for clearer vision and wiser action."

"No two wars were ever won by the same tactics and a few by the same weapons. The military leader of the future may navigate his ships by radio and the day may even come when all his fighting craft may be air navies battling in the central blaze."

He referred to the "doubt among naval statesmen" in accepting the American navy's proposal for the North sea barrage and declared the spirit that gave birth to that "great and original conception" won for the navy the honor of contributing the "outstanding offensive" against the submarine menace.

The secretary told the officers they were to be congratulated upon coming into the navy in a day when it holds—and holds deservedly—higher place in the confidence of the American people than in any period of its history."

Corn Market Showed New Strength Today

By Associated Press Leased Wire
Chicago, June 3.—New strength developed today in the corn market notwithstanding the opening quotations were lower. The continued meagerness of receipts here together with reports that eastern supplies were dwindling put bears at a disadvantage. The transient initial decline appeared to be due to profit-taking on the part of recent buyers. Opening prices, which ranged from 1/4 to 1 1/4 down with July 1.74 to 1.74 1/4 and Sept. 1.59 1/4 to 1.60 1/4 were followed by sharp upturns to well above yesterday's finish.

Oats rallied with corn after a temporary sag. The opening at unchanged figures to 1/4 lower including July 93 to 93 1/4, was followed by a rise to the highest prices yet this season. The provisions reflected weakness of hog values. Aggressive support was lacking.

Near the end of the session, the fact became apparent that the market was over-bought. General selling and a pronounced drop in prices followed. The finish was nervous, 1 cent to 2 1/2 cent lower with July 1.73 to 1.73 1/4 and Sept. 1.60 to 1.60 1/4.

State Dept. Wants Data on Burning of British Nat'l Emblem

By Associated Press Leased Wire
Washington, June 3.—The state department today asked the district of Columbia for a statement of fact as to the burning of a British flag here yesterday in front of the treasury by women sympathizers with Irish freedom.

The department acted on its own initiative, officials said, no protest against the action of the women having been made by the British embassy.

No arrests were made when the flag was burned and none has been ordered since that time. The women have picketed the treasury frequently and their burning of the flag passed almost unnoticed.

Woman Thrown From Merry-go-Round; Man Looking On, Injured

William Moon of this city, received painful injuries at the carnival grounds just outside the city limits last evening, while watching the merry-go-round when a woman who was riding on the machine, whose name could not be learned today, is thought to have become dizzy and was thrown off the rapidly moving platform against Albert Sherman and Mr. Moon.

Both men were knocked down when the woman struck them and when Mr. Moon fell both bones of the right leg just above the ankle joint were snapped. The man suffered considerable pain and was placed in a taxi cab and hurried to the office of a physician where the injured member was cared for, later being removed to the Sherman home. An investigation is being conducted this afternoon to learn the complete details of the accident.

PEOPLE'S COLUMN.

ABOUT MRS. O'HARE

Editor Telegraph: Reading the Associated Press dispatch headed, "Wilson Commutes Woman's Sentence," one might suppose that Mrs. Kate Richards O'Hare was guilty of the speech attributed to her, but had nevertheless been pardoned by President Wilson; an erroneous impression which in the interest of truth and justice should be corrected. Her sentence was commuted because it was shown beyond the shadow of a doubt that she was innocent of the crime charged against her.

A committee from the Socialist National Convention presented to Attorney General Palmer the affidavits of 145 out of the 147 present at the lecture, who testified that the charges made against her were not true. Judge Taylor of the County Court is one of the 145. He wrote the following to Mrs. O'Hare's husband:

"I was in attendance at the lecture. Am the father of a soldier who spent several months in the first line trenches in France, and I want you to know that Mrs. O'Hare said absolutely nothing complimentary to that boy or his mother. Knowing that her words were above criticism, it is the shame of our community that Mrs. O'Hare should be given such treatment."

Mrs. O'Hare was convicted on the testimony of five witnesses, three of whom were not in the hall when she spoke, and has served thirteen months in prison at hard labor for a crime she did not commit—Emma Hey.

IT DIDN'T PAY JACK TO ADVERTISE

Seattle—When Mrs. Jack Anthony saw the simple statement: "Son—born to Mrs. Jack Anthony." in the vital statistics column, she made an investigation and now Jack is in jail on a big army charge. He didn't divorce the first Mrs. Jack Anthony before he "married" Mrs. Anthony the second, it is held.

Repudiated Delegates to Convention Anyhow

By Associated Press Leased Wire
St. Louis, Mo., May 3.—Nathaniel Goldstein and Robert Moore, district delegates to the republican convention from Missouri whose support was repudiated in a formal statement by Governor Frank O. Lowden last night, on their arrival here from Washington today announced they "most certainly would attend the convention."

Lowden's statement, which declared the two delegates "were unfit to sit in a national convention" was issued as a result of testimony by Goldstein and Moore, before the senate sub-committee investigating pre-convention campaign expenses, that they had received \$2,500 each of Lowden campaign fund.

FRESHMAN CLASS GAVE PARTY

On Wednesday evening the Freshman class of the North Side school gave a most delightful party to the other classes of the school, the alumni, and the faculty in Kindergarten hall, with about a hundred responding to invitations. A Dixon orchestra was engaged to furnish music and the evening was spent in dancing. The hall was most elaborately and effectively decorated, shaded lights adding to the beautiful effect. Refreshments were served by members of the class during the evening.

EASTERN STAR MEETING

Dorothy Chapin, O. E. S., will hold a meeting for initiation of candidates at Masonic hall on Friday evening. Refreshments will be served and there will be dancing after the initiatory session.

COMMENCEMENT POSTPONED

The commencement exercises of the West Brooklyn school has been postponed until Monday evening on account of the illness of County Supt. of Schools L. W. Miller.

Brakes Not Faulty

Robt. H. Wadsworth motorman on the city car which ran into an interurban car Sunday morning, stated that the collision was not caused by faulty brakes on his car, but that he was running too close to the car ahead and was unable to bring his car to a stop in the short distance.

Mrs. John Hasselman and son Theodore of LaSalle, who have been visiting at the Mrs. S. C. Eastman and Mrs. H. W. Harshman home, returned home today. Mrs. Harshman accompanied them to that city for a short visit.

G. O. P. COMMITTEE SPEEDS HEARINGS IN LAST CONTESTS

(Continued from Page 1)

sideration of the delegates contesting seats, things are expected to move along with more speed. The committee will find themselves free to give attention to the convention issues. While the contests on discussion of candidates, platform and prospects is to them left hand work.

The committee today still had before it awaiting decision the Florida and Georgia cases and the cases of the eight district delegates from Mississippi. From those cases, it was waiting to pass on to the contests from North Carolina, Oklahoma, South Carolina, Tennessee, Texas, and Virginia. The indications are that the time consuming contests have passed and that with the Georgia and Florida cases out of the way the remainder will be more quickly disposed of.

Luck Withdraws Contest.

In the sixth Tennessee district it was announced that Harry A. Luck, of Nashville had withdrawn his contest. J. C. R. McCall, of Nashville, uninstructed, was seated. He was claimed for Wood.

The first contest taken up today was the suspended Florida case, the dispute between the Wood faction headed by National Committeeman Bean and that led by H. L. Anderson, of Jacksonville, reported to favor Johnson.

Committeeman Babler.

Jacob L. Babler, of St. Louis, the Missouri national committeeman told the senate investigating committee of receiving Lowden funds arrived today and took his seat in the committee. Lieutenant Colonel Roosevelt watched today's proceeding from the rostrum as an assistant to Secretary Miller.

Consider Women's Part.

The national committee's sub-committee to consider the part women are to play in the government of this party held a pre-breakfast session today but failed to reach definite conclusions. Victor Heintz, of Cincinnati, mid-west regional director for the national committee was commissioned to present certain views to leading Republican women and to advise the sub-committee so that a definite plan may be recommended to the full national committee next Monday.

The committee is confronted with the task of harmonizing the views of two schools of thought among the women. One asks dual control of the party with parallel organization of men and women. The other says that adequate representation of the women on the governing bodies of the parties would be wiser.

A meeting of women has been called for Sunday afternoon and all feminine delegates and alternates to convention as well as other leading Republicans will be present.

SHAVING BRUSHES ARE DANGEROUS

Anthrax Carried in Bristles

Bulletin of New York City Department of Health Cites Several Cases of Fatal Infection.

It has been found that germs of anthrax are often carried to men through the bristles of shaving brushes. Many instances of infection have been brought to the attention of the authorities, and these have been traced directly to the brushes used by the victims in shaving. In several cases where the first indication was in the form of a pimple or scratch on the face, traces of anthrax have been found and the patients have afterward died of the disease.

Great care should be exercised in this direction.

The safe way is to use a beard softener that requires no brush, no lather, no rubbing. Such a preparation can be found in Barbasol, which nearly every drugist sells, and which will eliminate all risk of infection.

If your drugist hasn't it, it will ed. Today everybody can take castor (35 cents) and druggist's name. Made only by the Napco Corporation, Indianapolis, Ind.

ST. JAMES' AID SOCIETY—

A meeting of the St. James' Aid society, a most pleasant one, was held at the home of Mrs. John Hagerman on Wednesday, with eleven members and four guests present. The meeting was opened by the vice president, Mrs. Bert Lindeman, in the chair. The society sang "America" and Mrs. Hagerman followed with a scripture reading taking the Twenty-third Psalm as the passage. Routine business was transacted and plans were made for an entertainment to be given at the church June 17. Mrs. Geisler presented the former president, Mrs. Ray Shaver, with a dozen cut-glass sher-bets, the gift of the society, in appreciation of the efficient and faithful service she has given the society in that office, never missing a meeting in the three years she filled president's chair. The meeting was closed with the Lord's Prayer. A social hour, with ice cream and cake served by the hostess, followed the session.

WOMEN'S TOURNAMENTS START—

On Wednesday the women members of the Country club began the tournaments of the season. On account of the rain of the morning the contest was made a nine-hole match, played in the afternoon. Each player was given a flag, which was set in the ground at the completion of a certain number of strokes. Number One, the one whose flag was planted nearest home, was given golf balls as a prize. The honors were given Number One, Miss Raymond; Number Two, Mrs. Hamilton, and Number Four, Mrs. Smith. Next week a handicap match will be played.

JUNIOR-SENIOR RECEPTION—

The Colonial Inn and Illini hall where the Junior-Senior reception of the South Side High school was given on Tuesday evening, were elaborately decorated in the class colors, lavender and white, for the affair, which was one of the most delightful of the school year. The members of the two classes participated largely in the affair and the members of the faculty were also present. After the several course dinner, an informal program of after-dinner talks were given, with Principal I. B. Potter serving as toast-master. The class prophecy was given by Jean Heinze in a happy fashion and was largely extemporaneous. Coach Vezina responded to a toast, reviewing the athletics of the year and prophesying greater progress next year. Richard Kreitzer gave the

class will, giving various equipment long considered as the property of the Senior Class, to the on-coming Juniors. The presentation of the annual package of gifts was made by Willard Jones to the Junior class. Supt. John C. Reeder responded to a toast, taking as his theme, "The Measure of Personality," as suggested by Kipling's poem, "If." Dancing in Illini hall completed the evening's diversions.

UNITY GUILD MET—

The Unity Guild members held a very pleasant meeting at the home of Mrs. A. T. Keithley on Wednesday. All were pleased to renew their acquaintance with Mrs. Keithley's sister, Mrs. Bringhurst, of Litchfield, Ill., who is making Mrs. Keithley a visit. A most enjoyable treat was the visit to the hot houses where tomatoes, ripening in the vines, enhanced the appetite for the excellent refreshments served later by the hostess. Beautiful flowering plants were also growing and blooming abundantly. The meet-

ing of Wednesday was purely a social affair, with members occupying themselves with their own needlework. The next meeting will be held at the home of Mrs. G. Selig.

HOME BAKING SALE—

Many tempting home-baked goodies will be sold by the Congregational ladies at their food sale Saturday. The sale will be held in the Kennedy Music Store all day.

THE BIRDS

One thinks of the birds as shy and
delicate creatures easily frightened
by a sudden sound.

That's error.

A bird is disturbed by noise only
so long as the noise is associated with
danger. The moment noise ceases
to threaten them, birds seem to mind
it not at all.

There's the gentle, hisping Phoebe.
This little bird chooses to nest
under bridges across which wagons
and trucks pass frequently with a
deafening roar. If the bridge is under
railroad tracks, where the racket is
yet greater, it's all one to the Phoebe.

The night-hawk is a more common
resident of cities than most persons
suspect. That is because the night-
hawks sleep through the day, and fly
at night.

Many of them seem to have aban-
doned the quiet country for the city.
The gravel roof of some high office
building in the noisy center of the
city is the chosen nesting place of
Mrs. Night-Hawk.

The sound of a gun frightens birds
only because they associate it with
danger. The creature most harried
by nerves and noise is the one that
makes the most noise of all. That's
Man!

THINK IT OVER

People who are inclined to cry out,
"Let Uncle Sam do it," might profit-
ably give some thought to Russia.

The Uncle Sam of that great store
house of natural resources and poten-
tial wealth and happiness is the So-
viet system of government.

There is nothing to indicate that
Russians are reveling in riches or
laughing with the joy of living.

The Soviet system of state and
general Socialism seems to be work-
ing out as a gigantic failure. The
people starve, though Russia once had
grain to export. They go unclothed,
though once the fields of Turkestan
provided the cotton for its great tex-
tile industry. They freeze, despite
the coal and oil fields and timber re-
sources.

"Socialism is all right when it
starts with the 'divvying-up' pro-
cess. It won't work when it comes
to creating something to divvy."
Thus has many a self-reliant Ameri-
can reasoned, and Russia furnishes
him the latest proof.

The Soviet did well at the start. It
plundered alike the palaces of the rich
and the homes of the thrifty. It ran
the railroads built under a better
system of life than its own. It was
clothed from the accumulated stores
of a happier day.

But now it is in evil times. There
is nothing more to "divvy up" and
little is being produced.

What's the trouble with Russia?
Not war, because the percentage of
the population involved in army af-
fairs is small. Not lack of natural
resources, because the soil is fertile,
the fuel and ore deposits as great as
ever. Not lack of man-power, for
Russia is full of husky men. It is
the lack of ability to profit by the
lessons of history chiefly in this:

"Man will work for himself, for
his family, for the future and enjoys
being good and generous to others
after providing for himself.

"Man will not work willingly in
normal times so that others may have
no less than he."

SEEDS OF UNREST

Wood, head of the Wood Trust, in-
dicted by a federal grand jury on
charges of alleged flagrant profiteer-
ing, is a manufacturer of agitators.

Of agitators the indicted woolen
trust president once said:

"They are sowing the seeds of
unrest and discontent among the
workers, not only of our own mills,
but throughout the country."

Wood doesn't like agitators. Yet
he is one of the busiest makers of
agitators in America, and produces
more arguments than any other em-
ployer. It was in Lawrence, Mass.,
the home of the Wood Wool Trust,
that the I. W. W. made its first ef-
fort in the United States.

"Woolen-mills conditions were
the constant target of criticism,"
admits Herbert Corey, in an article
intended to set forth the successful
strides William M. Wood has made.

Wood made agitators in his woolen
mills and created labor unrest there
because he had no other aim than
the accumulation of private profit.
"We have nothing to arbitrate," he
said when the starving mill workers
asked for an increase in pay in 1912.
The average weekly wage for 56 hours
work was \$10.72. The bloody Law-
rence strike followed.

That was how Wood made agitators
at Lawrence.

More recently manufactured agita-
tors were created by him by his 300-

per-cent increase in prices of woolen
cloth.

It is a question whether he sowed
more seeds of unrest by paying less
than a living wage in 1912, or exact-
ing a 300 per cent profit increase in
1920.

A wife fixes a man's standards of womanhood, it seemed to me. If she is
brave and unselfish, a husband will decide that all women are self-sacrificing
and courageous. If she is fickle and hysterical and lazy, so a man will imag-
ine the rest of her sex to be.

Perhaps in no other way is a wife so powerful for good as in her ability to
keep her husband's opinion of all women high and fine. A wife is just as pow-
erful for evil if she permit a man to believe that women, at their best, are in-
ferior to men.

"The average woman," says Havelock Ellis, "is about as competent as the
average man." This has been proven by the records made in war work it is
said.

Isn't it the average wife's duty to convince a husband of this fact? Not
by words but by deeds. I for one, have decided to have done with adventure
and excitement. I am going to settle down, and "stay put" in my own home.
I am going to try to make it a real home for Bob. Long ago I concluded that
Bob as a 100 per cent husband and that I would better try to keep him so.

Never did a brand new bride look forward to housekeeping with better in-
tentions than I upon our return from Mexico.

Bob was facing a huge task, in case no trace was ever found of our dear
Daddy. He would have to be saved all the annoyances about his home. I re-
solved to make it my joy as well as my duty to see that no petty home af-
fairs were permitted to irritate him.

Now that we were to begin housekeeping again, I resolved upon a new
role. I had started out the first time with the idea that I could be Bob's pal
and chum. The scheme hadn't worked very well. Bob treated me less ten-
derly than I desired. I missed the repeated caresses that my heart craved. I
was too much my husband's equal in authority. Being capable in my vocation
as a homemaker did not necessarily make him dislike to be kissed. So I
decided to assume all the familiar responsibilities and carry them effectively,
but I would cling—like the weakest of women, I would lean, I would droop, I
would depend! And see how it all turned out!

As I meditated thus in my room in the great Lorimer mansion on the
day Bob and Jim were to depart for South America, I felt a ripple of noise
and a thrill of excitement spreading over the inmates. I rushed to Mother's
sitting room, knowing that the excitement would be concentrated there.

"A wire—from a small port in South America," shouted Bob. "He's alive!
The telegram is in Spanish, so it must be a small town." Then Bob translated
the story.

The "lone" had been overturned in the high seas, but she did not sink. Af-
ter floating two days, Daddy and Archer and all the men but the superstitious
valet had been taken from the wreck by a nondescript freighter. Bob stopped
as if the difficulties of translation bothered him.

"By George!" he exclaimed. "The boat was owned by Hamilton Certels
and he was aboard her. Also Don Manuel! Can you beat it!"

The wire ended with the statement that Daddy couldn't tell when or how
he could get home. He had tried to buy the boat, but Certels wouldn't sell.
Daddy promised to explain by letter.

In the midst of the tremendous rejoicing over this news, Bob came to me
and whispered:

"Get it, Jane? Certels and Don Manuel are keeping out of sight. That's
why we had no report from that ship. And that's why Dad can't get home!"

"Looks as if our Daddy might be playing that he's a pirate bold before
long," I said with a gay laugh. Bob joined me heartily. It was good to be
able to laugh together again.

Smile Awhile

BY LEE HINGSTON

I take that weekly magazine that
comes from off the press in bales; per-
chance I read of Imogene, a maid per-
vocate of males.

Her pictures drawn with cunning
art in divers interesting views arouse
mine ancient, withered heart, and so
I ardently peruse.

As on Page 8 to know I burn if
she's to kiss that lad or ain't, to 65,
perforce, I turn to find white lead's
the soul of paint.

Then, when I land the tale once
more and just warm up to what she
did, "Continued Page 34" breaks
off the doings of that kid.

And on the latter page, I ween, is
watch a "comic" dank and droll, a
section of a serial spilt, and then
the feature of the night is Yes, Gen-
tle Reader, you are right, the heroine
is Imogene.

Again I find, again I lose this evan-

cent lady fair, now dodging eighteen
dollar shoes, now potted meats beyond
compare, and as the end grows near-
er I'm more sure and then I'm posi-
tive that I have wasted all my time
and Imogene's another fliv.

It's easy to forget the girl, from
memory she drifts away, then into
town I take a whirl to spend an even-
ing at the play.

I wish to view some sprightly scene,
so little change my purse affords, then
darned if it ain't Imogene!

They've gone and put her on the
boards. I seek a movie palace near,
a place of gingerbread and gilt, I
watch a "comic" dank and droll, a
section of a serial spilt, and then
the feature of the night is Yes, Gen-
tle Reader, you are right, the heroine
is Imogene.

THE MAN IS RUNNING

Why is the man running?
For office, my dear.
The man is running for office.
He's not the only one.

A whole wad of 'em are running for
president.

And for road supervisor, and con-
stable, and other jobs.

The conventions are going to be
pulled off soon.

The rest of this newspaper is devot-

bosses already know who they'll name.
The delegates will be mere rubber

But not so with this new third party
convention.

(You know anybody can start a third
party. Already 17 third-parties are
lined up. All you need to start a
third party is a man willing to run for
president and a boob who'll take the
vice presidency, and a reporter like
yours truly to record the happenings.)

This new third party is a doubtful
affair. It isn't fixed. It's a free-for-
all. It's as open as all outdoors. For
men and women.

Just to convince you there is no
color line drawn in this new third
party I mention, casually as it were,
the fact that invitations have been
sent to Cong. Black of Texas, Cong.
Green of Iowa, Cong. White of Kan-
sas, Cong. Brown of Wisconsin, Dr.
Expert Blue, Ex-Cong. Gray of New
Jersey, and Gov. Pinkham of Hono-
lulu.

By that you may annex the idea
that there'll be some scramble for the
nominations. You guess rightly. In-
deed, there is a fine flock of candi-

Two thus far have been mentioned
with undue beating of tomtoms. At
this minute they are the leading can-

Ev. True's campaign manager gave
me some inside information which in-

What the Bells Were For

Tingaling was ever so glad to see
Nancy and Nick, and welcomed them
most heartily to the Land-of-Deer-

help them to hunt for Jacko. He
seemed particularly pleased that they
had their Green Shoes along, also the
Magical Mushroom.

"It's just this way," he said, shak-
ing his finger, and immediately all
his bells jingled, "the animals can
hear me a mile away, I make so much
noise, and as you go anywhere in
your magical shoes, and become any
size you wish, you can do errands for
me. I've always needed some nice,
quiet little people to help me."

"Why do you wear so many bells?"
asked Nick curiously.

"Didn't you know?" exclaimed
Tingaling in surprise. "That's the
way the animals get punished if they
misbehave. They get a bell tied on,
and my but they hate it! I always
have to have a supply handy, you see."

Q—Will you please tell me some
way to get rid of bedbugs? We have

A.—In the eradication of bedbugs,
coal oil, which you have been using,
is almost always successful, provided
it is properly applied. One must
"track the beasts to their lair." Pic-
ture moldings are very likely to be in-
fested. The same is true of the backs
of picture hanging on the walls. In
the bed they are usually found in the
corners and dusty crevices. In the
bed springs they may be found in the
collect collected in the spiral spring near
the attachment to the frame. In the
mattresses they are often found be-
neath the tufts of cotton. Fumigation
is usually much less effective than
the proper application of coal oil.

Health
Advice

BUNIONS.

Bunions are enlarged joints, de-
formed, with tender calluses over
them. They can be cured by opera-
tion, but the operation is a relatively
serious one, involving reshaping of
the joint, and calling for special skill. Ev-
en minor operations for bunions, such
as paring calluses over the joint, are
not free from real risk of infecting
the "bursa" sac underneath, a serious
matter.

Bunions start from tight, short or
otherwise bad shoes, but proper shoes
alone do not cure them. There are
special "splints" for bunions, but they
are not very satisfactory. Solid-soled
soft shoes, broad enough, with a felt
pad behind the sore place to relieve
it of pressure from the shoe, give a
good deal of relief.

Apart from these measures all that
can be done is an operation.

CORNS AND CALLUSES.

Calluses result from pressure; un-
like corns, they have no "core." They
are merely thickened skin.

Corns may be treated with salicylic
acid applications, but, owing to the
changed structure of the skin compos-
ing them, they tend to re-form even
if the pressure is relieved.

"Soft corns" between the toes are
of an entirely different nature. They
can be rendered less troublesome by
bathing the feet in alcohol or salt wa-
ter. Sometimes they demand a small,
but delicate surgical operation for re-
moval.

In the treatment of corns and cal-
luses, a good chiropodist will usually
obtain excellent results, but one
should make certain that the chiro-
podist understands his work and is
scrupulously clean. In old people, or
those whose circulation or general
strength is poor, and especially in
those with diabetes, such work should
be undertaken only with great caution,
and in all cases, if there is any doubt
about the patient's condition, the fam-
ily doctor should be consulted. The
results of carelessness and incompe-
tence are often disastrous.

EXCESSIVE SWEATING.

Sweating may be due to poor health,
to nervousness, to the disturbance of
circulation due to arch troubles, or it
may be simply be a peculiarity. In
some cases, decomposition of the
sweat leads to troublesome odor, not
rarely to much reddening and skin in-
flammation.

Bathing with medicated alcohol and
water, and the use of talcum or alum-
talcum powder, give great relief and
may cure.

Formalin solutions, more effective,
should not be employed except under
medical supervision.

MAY BAR JUDGE AS BEING TOO YOUTHFUL

Code Body Proposal if Adopted Will Oust Judge Thompson

If the Illinois constitutional convention adopts the court section as it has been agreed upon by the committee, according to published report, it will legislate out of the running for justice of the supreme court Justice Floyd E. Thompson, of Rock Island county, now sitting in the court.

Report is that the committee has agreed upon fixing the age for a justice of the supreme court at 35, the requirement for a president of the United States, instead of 30, the present limit.

Since the convention assembled there has been an agitation for this age limit, the first proposal having come from Delegate Jarman, of Rushville in this supreme judicial district.

Naturally the partisans of Thompson have resented this proposal, and even some Republicans have taken the position that it is not good sportmanship in a district normally Republican. It is accepted here as a measure directed against continuance of Thompson on the supreme bench. Ages of the justices of the supreme court now are as follows:

James H. Cartwright, 77.
Orin N. Carter, 66.
Frank K. Dunn, 65.
William M. Farmer, 66.
Warren W. Duncan, 63.
Clyde E. Stone, 45.
Floyd E. Thompson, 32.

Judicial elections will be held next year, and the Rock Island member will be more than a year short of being able to qualify under the proposed rule.

Provides District Court.

Published reports indicate that the circuit court as established will not be greatly changed, but a district court is proposed, which will take the places of the county court, the probate court and city courts. Provision is made that each county shall have a district court.

This is a variation, perhaps something of a compromise between plans offered by the state bar association committee and by the judicial section of the association.

Only lawyers will be able to qualify for positions on the district bench under the proposed section, a requirement not now existing with reference to county and probate courts. The minimum age limit for judges of the circuit court is fixed at 30 and for judges of the district court at 25.

Terms of judges of the appellate, circuit and district courts are fixed at six years and will expire at the same time.

Appellate judges will not be taken from the circuit bench as they now are, but shall be elected.

Following is the section relating to justices of the peace:

"Justices of the peace shall be elected or appointed in and for such district as may be provided by law. They shall receive such salaries as may be fixed by the boards of supervisors or county commissioners of the respective counties to be paid by the township or district in which they are severally elected or appointed; but the electors of any township or district may abolish therein, by vote, the office of justice of the peace. All fees and emoluments received by any justice of the peace shall be paid into the treasury of the township or district in which he is elected or appointed."

Recorders to Remain.

In reforming county government the committee proposed combination of clerks of the circuit courts and rec-

Says His Prescription

Has Powerful Influence Over Rheumatism

Mr. James H. Allen suffered for years with rheumatism. Many times this terrible disease left him helpless and unable to work.

He finally decided, after years of ceaseless study, that no one can be free from rheumatism until the accumulated impurities, commonly called uric acid deposits, were dissolved in the joints and muscles and expelled from the body.

With this idea in mind he consulted physicians, made experiments and finally compounded a prescription that quickly and completely banished every sign and symptom of rheumatism from his system.

He freely gave his discovery to others who took it, with what might be called marvelous success. After years of urging he decided to let sufferers everywhere know about his discovery through the newspapers. Your druggist has been appointed agent for Allen's in this vicinity with the understanding that he will freely return the purchase money to all who state they received no benefit.

DON'T BE TOO COCK-SURE

BY ROGER W. BABSON.

(World-Famous Statistician.)
"You're wrong! I know positively thus and so to be a fact."

Ever hear anybody talk that way? Well, you hear an man who was rapidly getting himself "in bad."

It's those blanket statements, so very positive, set forth a little louder than usual, that do it.

They convince folks of only one thing, namely, that there is something about the speaker which they don't like.

A great many innocent people are getting themselves "in bad" by spouting positive statements without supporting proof.

They don't have many friends and don't know that it is this habit of speech which makes them unpopular.

If you really want to make a point or put over an argument, you can do it much more forcefully by asking questions that will bring out the strong points in your favor, or the weak points in the opposition.

In answering them, the other side of the argument defeats itself.

You win your point without antagonizing any one.

If you are inclined to argue it is a good plan to remember that there has never been a debate in which the debaters themselves have been convinced and that old bird, the owl, has won the reputation of being very wise just by sitting still, looking wise and saying nothing.

PASTOR PUTS BAN ON LADIES AND GENTLEMEN

London.—"Call your congregation men and women," declares the Rev. Bruce Crawford here. "Ladies and gentlemen are no longer words with meanings. They are an insult. It would be an insult to call St. Peter a gentleman."

Wilbur H. Emmert, of Franklin Grove, was in Dixon today.

"Just One" Gets Results Every Time

Only Laxatives That Keep on Giving Satisfaction and "Never Wear Out."

The same identical result from the same dose, now or after years of use, is what you get from "Just One" that no other laxative can offer.

"Just One" cannot wear out or get your system accustomed to it, as other laxatives always do. You don't change from "Just One" to some other laxative, because you are already changing with every dose of "Just One" you take. Twenty tablets, alike in appearance, but each a different laxative and acting upon different organs or sets of organs, in each box of "Just One." You cannot take the same kind twice from the same box, so you cannot get your system accustomed to and unresponsive to these tablets. That's why "Just One" never wears out.

Keeps your whole system active and uncongested instead of pounding upon one organ all the time. This is the ideal, the modern, the scientific way. You'll want "Just One," of course. Any druggist anywhere can get "Just One" for you or we will send it post-paid upon receipt of 25c per box. Peritone Chemical Co., Council Bluffs, Iowa.

NEWS FROM DIXON

SUMMER MEMBERSHIPS

With the coming of warm weather the interest of those athletically inclined turns to swimming and the bathing suits are gotten ready for use.

There is swimming and swimming from the dog paddle to the crawl and diving from the plain "splash" or "flop" to the "galner" and other fancy stunts, and every one who is interested at all in water sports is

interested in improving the stroke and acquiring speed and form. There are several reasons why everyone who is physically able should swim, first, because it is a healthful exercise. No

other form of sport will develop the body as symmetrically as will swimming, from head to foot and with no muscle developed at the expense of another. Second, because it is a pleasant pastime, whether indoor or out. Third, because it is useful and may be a means of saving life. Every one owes it to himself to be able to swim as he may, at some time or other, not only be able to save his own life but possibly another's also.

During the summer months the swimming pool at the Y will be a popular place, one where a person can learn how to swim or how to swim better, and from observation there isn't anyone that hasn't something to learn about keeping afloat or traveling thru the water. A summer schedule for the boys is being prepared and the men who wish instructions can make appointments with Physical Director Kuhn most any time. The ladies will have

Tuesday afternoon and Friday afternoon and evening and instruction hours will be announced later for these days. A special summer membership in the Y is also available for those who are not already members of that institution and who wish to use the pool during the summer months. This membership will run from the first of June to the first of October and will be \$4.00 for men and \$2.00 for women and boys. With this opportunity open to the people of Dixon there is no reason why everyone so inclined cannot learn to swim.

THOUGHT CHILD A FREAK—DROWNED IT

Herne Bay, Eng.—"I was going to kill myself and I didn't want to leave a freak baby behind," Mrs. Emily Irving told a coroner's jury here. She drowned the child in a bath tub. The inquest showed the baby normal.

MEX. GENERAL CAPTURED.

By Associated Press Leased Wire
Mexico City, June 2.—General Silvestre Mariscal, former governor of Guerrero, who has been an opponent of the new Mexican government in that state in the fall of the Carranza regime has been wounded and captured by a revolutionary detachment commanded by Juan Millan of Arteaga, according to a message to General Obregon from General Hector E. Lopez at La Union, Guerrero. The encounter occurred at La Higuera in Guerrero, which state, it is said, has now been cleared of rebels.

Baruch Dares Mason to Put Up Evidence

Washington, June 2.—B. M. Baruch, former chairman of the War Industries Board, wrote today to Representative Mason, Republican, Illinois, demanding that he submit at once to congress and to the attorney general "the evidence which prompted" him to state in the house on May 27 that he was "willing to vote to have your attorney general bring suit against Barney Baruch, the chief man, the closest man to the President of the United States, who stole \$50,000,000 in copper alone."

Mr. Mason's statement was made during debate on the soldier bonus bill.

SCIENTISTS MAKE NEW CASTOR OIL REALLY TASTELESS
Remarkable Process Improves Famous Old Family Remedy
Nobility ever dreamed that castor oil could be made tasteless. But the chemists of Spencer Kellogg & Sons, Inc., one of the largest manufacturers of castor oil, tackled the problem and succeeded in perfecting a process by which the taste is absolutely removed. Today everybody can take castor oil easily, for Kellogg's Tasteless Castor Oil is really tasteless. Nothing is put in to disguise the taste. Strength and purity are unchanged. Curative, healing, and soothing qualities remain the same. It's the same good old-fashioned castor oil that your doctor always prescribes, with the taste removed. Children take Kellogg's Tasteless Castor Oil easily. No bribing or coaxing. You can now get Kellogg's Tasteless Castor Oil at all good druggists. Do not accept substitutes, if you want a really tasteless castor oil. Insist on Kellogg's Tasteless Castor Oil. Two sizes, 35c and 65c.—Adv.

THE MAYTAG MILLRACE PRINCIPLE CONVERTS THOUSANDS

EVERYWHERE the question is asked, "Why has the Maytag become so quickly popular?" The answer is in the beauty of the cabinet and in the Millrace Principle of washing! We know women are thinkers. We know they realize that a washing machine built upon scientific principles is basically right and will do the work.
That is why women prefer the Maytag. It is why thousands who never before used washing machines have been converted by the astonishing results produced in the Maytag.
Maytag
Cabinet ELECTRIC WASHER
Think of washing heavy blankets, portieres, couch covers, rag rugs, etc., perfectly. And then, in the same half hour, cleaning dainty boudoir caps, georgette blouses, delicate lingerie and other fluffy, frilly things to spotless purity in the same machine—all by electricity—without labor—with a minimum of water and soap—and in half the time you can do it by hand.
Do you wonder women prefer the Maytag? Do you wonder it converts them to the washing machine idea? Come for a demonstration of the Maytag and the Millrace Principle. Don't wait another day. You, too, should have one of these beautiful machines. Or if you prefer to have the Maytag demonstrated in your home, phone us.

SPECIAL ASSESSMENT NOTICE Under Local Improvement Ordinance No. 197, Series of 1920.

Notice is hereby given to all persons interested, that the Council of the City of Dixon, a municipal corporation, in the County of Lee and State of Illinois, has by Local Improvement Ordinance No. 197, Series of 1920, passed by the Council of the said city of Dixon, on the 20th day of April, A. D. 1920, and approved by the Mayor of the said City of Dixon, on the 20th day of April, A. D. 1920, providing for the furnishing of labor and materials for and the construction of vitrified tile pipe sewer with manholes and house connection laterals in North Dixon Avenue, in said City of Dixon, Illinois, from the manhole heretofore constructed at the center of the intersection of said avenue and East Chamberlain Street, northerly to the intersection of said avenue and East McKenney Street.

The said manholes are to be constructed along the line of the sewer aforesaid, and located as follows:

One at the intersection of the said sewer with the center line of East Morgan Street;

One at a point two hundred feet northerly from East Morgan Street;

One at the intersection of said sewer with the center line of East McKenney Street.

That said Ordinance is now on file in the Office of the City Clerk of the City of Dixon, Illinois, that application has been made to the County Court of Lee County, Illinois, for an assessment of the cost of said improvement according to the benefits as provided by law and said Ordinance; that an assessment therefor

A Word of Help to Women of Middle Age From Mrs. Raney.

Morse, Okla.—"When I was 45 years old Lydia E. Pinkham's Vegetable Compound carried me through the critical period of the Change of Life in safety. I am over 60 and have raised a family of eight children and am in fine health. My daughters and daughters-in-law recommend your Vegetable Compound and I still take it occasionally myself. You are at liberty to use my name if you wish."—Mrs. ALICE RANEY, Morse, Oklahoma.

Change of Life is one of the most critical periods of a woman's existence. This good old-fashioned root and herb remedy may be relied upon to overcome the distressing symptoms which accompany it and women everywhere should remember that there is no other remedy known to carry women so successfully through this trying period as Lydia E. Pinkham's Vegetable Compound.

If you want special advice write to Lydia E. Pinkham Medicine Co. (confidential), Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Only a third of a teacup to a pail of cleaning water keeps the home free of germs.

Agreeable and effective as a sanitary agent.

Women understand they must keep the home, not only visibly clean, but free from invisible disease-breeding germs.

For this purpose they use Puri-Fi because it is an ideal germ killer, disinfectant and deodorizer.

They need a sanitary agent that is both powerful and safe. Puri-Fi is non-poisonous and harmless, but efficient and economical.

Users of Puri-Fi describe it as "like a stream of concentrated sunshine." They find it agreeable because it leaves such a clean, sweet smell.

To safeguard the home and make it completely sanitary use Puri-Fi every day. Put one third of an ordinary teacup of Puri-Fi in the pail of cleaning water (equivalent to two teaspoonfuls to a quart) for floors and walls, the dark corners, the garbage pail, sinks and drains; pour just a few drops of Puri-Fi itself into the closet bowl.

Puri-Fi is as necessary as soap and water, brushes and mops. See to it that a bottle is always handy. Ask your grocer or druggist.

4 ounce bottle 25c—12 ounce bottle 50c.

A party was held at the L. Bauman home last Wednesday evening. About forty-five were present, most of them from the Rock Falls Lutheran Sunday school where the Bauman young people attend. Refreshments consisted of ice cream and cake. An enjoyable evening was spent.

Mrs. Frank Millhouse spent Wednesday at the George LeFever home in Prairieville.

Misses Ruth Tillman and Eva Millhouse visited several days at the Geo. Rummel home in Adeline.

Mr. and Mrs. Floyd Tillman returned Wednesday from Belvidere.

Mr. and Mrs. George Wechsler were dinner guests Sunday at the R. E. Gilbert home.

Early Thursday morning the community was aroused by telephone calls. The large horse and cattle barn on the George Brown farm was on fire. The family were awakened at 2:30 when the barn was all ablaze. They tried to rescue the stock but only two horses were taken from the burning building. Two horses, three calves, and eight valuable Holstein cows were burned. The barn, corncrib, two silos, and a lot of machinery, etc., were burned. A large number of men gathered and helped save the other buildings. Mr. Brown expects to erect another barn this summer.

The Penrose and East Jordan churches will hold a Union Christian Endeavor service next Sunday evening, June 6th, at the East Jordan church. The topic, "What Bible Does for Us," will be in charge of Amos Hoak and Frank Millhouse, one from each society. The pastor, Rev. E. M. Edwards, will preach after the Christian Endeavor hour. Next Sunday evening, June 13, the union Christian Endeavor service will be held at Penrose, with a sermon by Rev. E. Lee.

ASPIRIN IS SAFE WHEN GENUINE

Take tablets without fear, if they are marked with the "Bayer Cross."

If you want the true, world-famous Aspirin, as prescribed by physicians for over eighteen years, you must ask for "Bayer Tablets of Aspirin."

The "Bayer Cross" is stamped on each tablet and appears on each package for your protection against imitations.

In each package of "Bayer Tablets of Aspirin" are safe and proper directions for Colds, Headache, Neuralgia, Toothache, Earache, Rheumatism, Lumbago, Neuritis, and for Pain in general.

Handy tin boxes containing 12 tablets cost but a few cents. Drugists also sell larger "Bayer" packages. Aspirin is the trade mark of Bayer Manufacture of Monoaceticacidester of Salicylic acid.
